

Wings Gold Club - USD News for XAUUSD

What we track from Forex Factory (red & orange USD only)

Daily outlook, pre-news alerts, and post-release breakdowns use Forex Factory as the source. Only USD events with red (high) or orange (medium) impact are considered. A second filter keeps releases that matter for gold traders.

Tracked

- Inflation: CPI, PPI, PCE, Core PCE
- Jobs: NFP, ADP, unemployment rate, jobless claims, JOLTS
- Growth: GDP, retail sales, trade balance
- PMI / ISM: manufacturing & services PMI, Flash PMI, regional Fed surveys
- Industry: durable goods, factory orders, industrial production
- Sentiment: consumer confidence, UoM / Michigan sentiment
- Housing: starts, permits, new / existing / pending home sales
- Fed & rates: FOMC, rate decisions, minutes, Fed Chair Powell, FOMC press
- President Trump speeches (FF orange/red)
- Flash Manufacturing + Flash Services PMI at same time (Composite PMI dropped)

Dropped (even if FF shows red/orange)

- Other political speeches (e.g. Biden, Treasury officials)
- Routine Fed member speeches (non-Chair)
- Energy: crude oil, natural gas, gasoline inventories, rig counts
- Treasury note/bond/bill auctions
- MBA mortgage data, Fed stress tests, beige book, balance sheet / M2
- Current account, minor inventories, consumer credit, vehicle sales
- Agricultural reports (WASDE, crops)
- Any other USD event not on the gold-relevant list above

Automation schedule (SGT)

- 12:00 PM - USD news outlook (next 24 hours)
- 1 hour & 15 minutes before each tracked release - warnings
- After release - actual vs forecast breakdown + XAUUSD read
- 2:30 PM - XAUUSD intraday plan (separate from news calendar)

Risk note

High-impact news can widen spreads, cause slippage, and fake breakouts. Signals pause near major releases. This list follows Forex Factory folders plus WGC gold-trader relevance rules.
